MEET VIVA WELLNESS ALBERTA

As registered nurses and spin instructors, Britney and Victory bring a unique blend of clinical expertise and holistic wellness to Viva Wellness Drip. United by a shared belief in prevention, balanced living, and the body's ability to thrive with the right support, they created the clinic to offer safe, evidence-informed IV nutrient therapies that restore vitality from within.

Britney's experience as a mother of three, alongside her nursing and fitness background, informs a compassionate, personalized approach to care rooted in trust and connection. Victory brings a strong focus on proactive health, emphasizing nutrition, movement, and foundational wellness to enhance energy, recovery, and long-term well-being.

Together, they've created a space where clinical precision meets a holistic mindset—empowering clients to feel their best, take charge of their health, and live more energized lives.

In today's high-performance environments, energy, focus, and recovery are no longer optional—they are essential.

VIVA Wellness Alberta delivers on-site IV therapy experiences designed to support your team, elevate your events, and enhance how your organization is experienced.

Whether you're investing in your employees, hosting valued clients, or producing a high-impact event, our services ensure people show up at their best—and stay there.

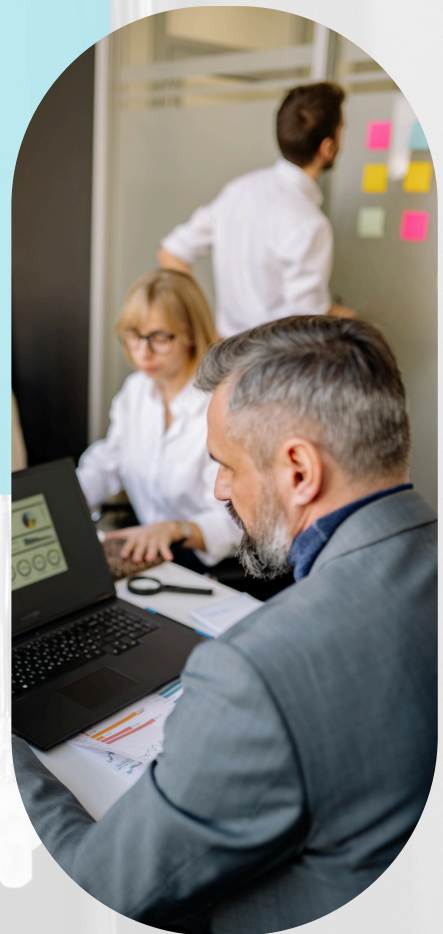

WHY CORPORATE WELLNESS MATTERS

Modern workplaces demand more—long hours, tight timelines, travel, and high expectations can impact both performance and well-being.

Organizations that prioritize wellness see measurable benefits:
